Objective

UI Designer with a creative problem-solving mindset focused on developing user-centric design solutions that promote accessibility and inclusivity.

Projects

Canny Cooking

Career Foundry Case Study
UX/UI Design

- Applied the user-centered design process and mobile-first approach to design a responsive web app to help users cut down on food waste.
- Defined user needs and goals through user interviews, and developed personas, user scenarios, and user flows.
- Developed multiple iterations of high-fidelity screens through conducting user testing.

LevelUP

Career Foundry Case Study
UI Design

- Conceptualized and designed a native mobile app for both iOS & Android.
- Defined project guidelines, developed user flows, and conducted user surveys.
- Created wireframes and prototypes that were used to conduct usability tests.

Work Experience

Fox Run Cafe

2021 - Present

Bartender/Waitress

- Developed and maintained an organizational system for the bar. Resulting in more efficient service and a more consistent product.
- Built a strong team by communicating quickly and effectively when problems arose. This led to swift problem-solving with the cooperation of different team members.

Montessori Academy of Colorado

2021

Teaching Assistant

- Managed the schedule for a classroom of 20+ students and four teachers. Enhancing the time awareness of scheduled activities and time off and breaks for the teachers. As a result, a level of consistency was achieved that reduced teacher stress and improved student experience.
- Coordinated with other departments and classrooms to create safe and engaging after-school activities for students. Leading to a higher number of children enrolled in after-school programs and ultimately bringing in more funds for the school.
